

PRODUCTION

Astrographic Industries is one of Western Canada's leading manufacturer of signage and wayfinding. Our 30,000 sq. ft. production plant is fully equipped for any type or size of aluminum and steel fabrication.

We have the capacity to accommodate short or long term production and delivery schedules.

Protection

Vinyl car wraps or paint protection film (PPF) protect your OEM paint and are 100% removable.

Refresh

Hides scratches, small chips, and updates/maintains the look of your vehicle.

Cost Savings

Cost for a vinyl vehicle wrap is considerably less than a comparable paint job.

Originality

Create your style using a matte, semi-gloss, gloss, brushed steel, carbon fiber, matte metallic, chrome, or even a leather-like finish.
